

K-Love local FM (on FM Freq. 99.3 in my area) provides our family a way to listen to Positive and encouraging God centered Christian music.

If it were to be displaced with LPFM providing other programming it would severely impact my local community. We will not have any commercial free Christian Radio station. It is the only family safe radio station in my view, in this area.

We simply love this commercial free radio station. It serves the community by being available 24/7 to whoever needs. It has 5 full time pastors. Many lives have been changed over years (statistics show that more than 8000 people accept Christ each year because of K-Love) nation wide. May lives have been saved over years. For example, many people on the verge of committing suicide get help from this Radio station.
